Who is Hanalei Swan?

My name is Hanalei, I'm 10 years old and I live in Bali, Indonesia although I am not Indonesian.

I was one years old when started traveling, I left the USA to travel abroad with my parents, they wanted me to learn from real life, not from a text book.

In that time we have visited and lived in 6 continents and over 36+ countries. Most people think I have grown up different than other kids my age but I think it's pretty normal. I've Attended schools in countries like Brazil, Panama, Peru, Mexico, Indonesia. I've have had the opportunity to see some incredible places and meet amazing people.

I've made friends from all around the world. Every day is new adventure, with new friends, new sights and new lessons. Being an only child I had a lot of time to think, draw and sketch the beautiful sites I would visit.

I want to change the world. I like to encourage people to feel confident, to feel happy, healthy and beautiful. Because a lot of people deal with fear in their life. And unfortunately there's no quick way to go through it. But for me...

A beautiful dress can make anyone feel... powerful.

About HS Styles

HS Designs is a socially conscious fashion brand that supports education for young entrepreneurs. Every 8 items sold, we will donate \$152 to supply 5 children with life-saving necessities like food, water & school uniforms through the Unstoppable Foundation.

57 million children around the world are not attending primary school, 43% of those children live in Africa. The vast majority of the children, women, and men in Africa are living in absolute poverty with no hope of uplifting themselves, or their communities out of poverty, without our support.

Together we can TRANSFORM that outcome, and give an entire community the resources they need

HS Boots

Each boot is named after a rescue animal in bali. For every boot sold we will donate to the BAWA foundation for animal rescue and protection. Our products are also earth & life friendly, pineapple leather will be our vegan, life conscious alternative to leather.

Unstoppable Kids

ABOUT Unstoppable Kids

Most kids are asked "What do you want to be when you grow up?" I was asked "What do I want to be now?" My mission is to inspire kids & adults to go after their passions, and not wait until they get older.

The Unstoppable Kids book was illustrated and written by Hanalei and her Mom, to give parents the tools needed to teach their children to become UNSTOPPABLE. To help kids embrace the true creativity they are all born with.

It's about preparing future generations to live the life they were born to live, to explore not within the boundaries of what society dictates, but outside the boundaries of their imagination, to improve life as we know it on our planet and add massive value back to the world. The UK program is a virtual hangout for kids teaching kids.

We have Masterclasses, and an app for the kids to stay connected and to grow together.
